Water North
Coalition

Mission

Find and implement northern solutions to water sourcing and water challenges through:

- Advocacy
- Education & Awareness
- Recruitment, Training, and Retention

Membership

Eligible voting members include:

Northern municipalities, First Nations & Metis Settlements

Non-voting members serve in an advisory capacity and include:

Water/wastewater commissions and professionals, Provincial/Federal Government, Rural Water Co-ops, Owners and Operators.

Members are allotted one vote per community.

The Coalition meets four times annually in rotating locations across the north.

Vision

The group seeks to ensure that sustainable water systems are available to every northern community.

The WNC is supported administratively by the Northern Alberta Development Council, a provincial advisory body mandated to advance the development of the north. The coalition is inclusive of the NADC region.

Guiding Principles:

1. Share information on water and wastewater regulations and responsibilities
2. Work collaboratively with members and partners
3. Identify emergent workforce needs
4. Advocate for “made in the north” solutions and funding for training, education, recruitment and retention, succession planning for municipal water/wastewater personnel
